## Call Whenever

- There is a release or spill on your property;
- There is a release of any cargo or fuel, oil, antifreeze, etc., from your vehicle – no matter how small;
- There is a release from any other vehicle involved in the accident;
- There is a spill during on-loading, off-loading or delivery – even at a customer's facility, no matter how small.

## Instructions

- Follow company policy.
- Do not leave the scene.
- Find out whether a state or provincial environmental regulatory authority has been notified.
- Know the phone number where you are or a number where you can be reached.
- Report the material, the amount released and your precise location.
